Foreword and Disclaimer	1
Table of IATA Regions and Traffic Conference Codes	1
Notes on Country Names	
ENCODE – Country Name to ISO Country Code	2
DECODE – ISO Country Code to Country Name	12

Foreword and Disclaimers

This document was prepared as an aid to my colleagues and myself, in checking Customer Usage against the current lists of Countries, IATA Regions and Traffic Conference Codes in preparation for Database load prior to System Delivery. As it was prepared outside Company time and is not part of the official company library, there are no copyright issues.

- This is **NOT** an official International Standards Organisation Official Document, **nor** is it an IATA Official Document. For Airline professional use in Airlines, always refer to the current **Standards Schedules Information Manual Appendix I**.
- The version posted on my web site: <http://www.cue-dih.co.uk> was prepared on the date shown at the left hand side at the foot of each page. Whilst the document may be maintained, **for professional use please DO NOT ASSUME it contains the latest data.**

E&OE

DIH 16 October 2004

Table of IATA Regions and Traffic Conference Codes:

IATA Region	Region Name	Traffic Conference Code
AFR	Africa	TC2
CAR	Caribbean	TC1
CEM	Central America	TC1
EUR	Europe	TC2
JAK	Japan and Korea	TC3
MDE	Middle East	TC2
NOA	North America	TC1
SAS	South Asia Subcontinent	TC3
SEA	South East Asia	TC3
SOA	South America	TC1
SWP	South West Pacific	TC3

Notes on Country Names

China Notes:

Hong Kong and Macau are Special Administrative Regions and from an Airline viewpoint have to be treated separately from the rest of the Peoples Republic of China.

With Taiwan the situation is more complex as it has an elected president a democratically elected government and is accepted by certain countries as being a sovereign nation. However it is viewed by the Chinese Government in Beijing as the 23rd province of China. This basic issue of sovereignty obviously results in challenges for Airlines wishing to operate to Taiwan and the rest of China,

Russian Federation Note:

The official ISO Country code is: RU.

However for Airline purposes ONLY IATA Regions and Traffic Conference have split the Federation along the line of the Urals into:

East of the Urals – Code XU

West of the Urals – Code RU.

This means there are three entries in the ENCODE/DECODE Tables, the official and the IATA Split.

Vatican City State and Holy See - Note:

Some documents use the Holy See rather than the Vatican. In this document the information is detailed against the Vatican entry

Zaire Note – Name changed to: The Democratic Republic Of The Congo

Airline Country Codes and IATA Regions

ENCODE - Country Name to ISO Country Code
